

Messenger wire and contact wire insulators

TSIO21.5 Catenary insulators

Application
Catenary insulator

Characteristics
SML: 100 kN
Nominal working tensile load 40 kN

Material
Stainless steel, fiberglass rod PTFE coated

Article-Nr.									
657.029.000	550	300							1.3

Technical Specifications: **Catenary insulators TSI021.5**

Article No.	657.029.000
Specified mechanical load (SML)	100 kN
Length a	550 mm
Creeping distance	300 mm
Commercial specification	
Customs number	85353000
country of origin	undefined
Logistic specification	
Kilo / piece	1.3 kg
