

Down-conductor components

AL 49 Isolating Spark Gap

Characteristics
Isolating spark gap, for lightning protection equipotential bonding
Low spark-over voltage: 70VAC / 50Hz, 100VDC
Connections: M8 bolt/nut

Article-Nr.	E-Number									
356.004.000	156 900 040	InoxA2	AC/DC	100	70 - 100					1

Technical Specifications: Isolating Spark Gap AL 49

Article No.	356.004.000
Material	InoxA2
Voltage mode	AC/DC
Lightning impulse current (10/350) μ s [Iimp]	100 kA
Explosion-tested version	No
Nominal discharge current (8/20)	100 kA
Suitable for connection	sonstige
Operation voltage max. [Uc]	70 - 100
Material of connection	rostfreier Stahl (V2A)
Connection	Metric
Low spark-over voltage	70VAC/50Hz, 100VDC.
Commercial specification	
Customs number	85389000
country of origin	DE
Logistic specification	
VPE Weight	0.125 kg
