

Interception components

■ **FL 69** Lightning conductor bridge

Application
For crossing walkways on flat roofs
The optimal step protection for lightning protection round
conductors on flat roofs

Characteristics
Loadable up to 1500kg
UV resistance

Article-Nr.	E-Number									
226.021.000		6 - 10	PU	500	380	72				1

Technical Specifications: **Lightning conductor bridge FL 69**

	226.021.000
Application	Flat roof
Mounting type conductor	eingelegt
Material	PU
Material of holder	Plastic
Material of carrier	Plastic
Wire diameter	6 - 10 mm
Diameter conductor	6 - 10 mm
Length a	500 mm
Width b	380 mm
Height c	72 mm
Commercial specification	
country of origin	CE
Logistic specification	
VPE Weight	6.4 kg
